

Utah Telehealth Network

School based telehealth kit news!!!!!!

Have you ever wanted to add someone to your telehealth visit like a parent or provider? Now you can by using the **Invite** button at the top of your call screen. This new feature was added to the latest version of the software to make it easy to include others in your telehealth visit with a student. Below are the steps you can take to use this new feature

On the tablet:

1. Update the software to the latest version (1.14.5 or higher) by clicking on the Menu button in the bottom right of the tablet home screen, then click settings and Check for Updates.
2. Click on the Clinics button and select a clinic to begin a call
3. When the Zoom window opens, select “**Invite**” on the top left of the screen.
4. Select invitation method. Email, SMS or WhatsApp.
5. This will send a link to someone (parent, grandparent, lead nurse, or provider) who you want to join the call.

Its that easy. Give it a try.
